Sennheiser EW 172 G3

Robust metall hölje (sändare och mottagare)
42 MHz bandbredd: 1680 avstämbara UHF-frekvenser för störningsfri mottagning.
Utökad frekvens banksystem med upp till 12 kompatibla frekvenser.
Högkvalitativ sann mångfald mottagning.
Pilotton brusspärren för att eliminera RF-störning när sändaren är avstängd.
Automatisk frekvens scan-funktionen söker efter tillgängliga frekvenser.
Förbättrad AF frekvensområde.
Ökat utbud för ljud känslighet.
Trådlös synkronisering av sändare via IR-gränssnitt.
Användarvänlig meny drift med mer kontroll alternativ.
Belyst grafisk display (sändare och mottagare).
Auto-Lock-funktionen undviker oavsiktlig ändring av inställningar.
HDX Compander för kristallklart ljud.
Sändare funktionen batteri indicatation i 4 steg, som också visas på mottagarens display.
Programmerbar Sekretessfunktion.
Integrerad Equalizer, Soundcheck mode och stämapparat.
Kontakter för att ladda BA 2015 accupack direkt i sändaren.
Brett sortiment av tillbehör anpassar systemet till alla krav.

Leveransen omfattar

1 EM 100 G3 rackmontering mottagare
1 SK 100 G3 bodypack sändare
1 Ci 1 instrumentkabel
1 NT 2 nätdel
2 antenner
2 stapling element
2 AA-batterier

Sennheiser XSw 72

Sennheiser XSw 72-E, komplett trådlöst system med ficksändare och instrumentkabel.

General Description
Designed for guitars and instruments with a jack socket, the XS WIRELESS Instrument Set offers natural sound reproduction and connects your instrument directly to the bodypack transmitter – giving you the freedom to move wherever you want on stage.

Features:
Easy-to-use, all-in-one package for singers, speakers and presenters
Directly connects to ¼” (6.3 mm) sockets
Outstanding sound quality
Mute button for full speech control
Synchronization via RF remote channel
Frequencies tunable in steps of 25 kHz
24 MHz bandwidth (13 MHz for the E band)
8 frequency banks with each max 12 presets

Delivery Includes:
1 EM 10 stationary receiver
1 SK 20 bodypack transmitter
1 1/4" (6.3mm) jack cable
1 NT 2-3 power supply unit
2 antennas
2 AA batteries
1 pouch

Airline88 AWX Wind System

Airline88 AWX Wind System Trådlöst system för blåsinstrument
Samson's AWX Wind Instrument system offers true wireless freedom without the hassle of a beltpack or cable. Featuring the world's smallest clip-on transmitter with a shockmounted microphone and adjustable gooseneck, this frequency-agile UHF wireless system provides high definition sound and 300' of reliable wireless operation for saxophones, trumpets, trombones and other wind instruments.ATX-tend Your ReachThe AWX system continues Samson's longstanding commitment to wireless innovation. Designed to be an extension of your instrument rather than a separate component, the ATX Wireless Transmitter clips directly to your instrument bell with no beltpack or cable necessary and lets you rule the stage with confidence. It provides infrared sync to wirelessly match the receiver and transmitter frequency, easily accessible Gain and Mute controls, a battery life LED indicator and an 8-hour rechargeable lithium-ion battery.Mic the WindThe ATX transmitter features a HM60 condenser microphone with 3-point halo isolation mount to minimize any noise caused by mechanical vibration. The mic capsule

offers a supercardioid pickup pattern that handles up to 125dB SPL, ideal for handling the sudden attack of wind instruments. The HM60 also offers an 8.5" adjustable gooseneck (with P3 connector) for optimal mic placement in front of your instrumentâ€™s bell.Road-agileOffering frequency-agile operation, the system's rack mountable CR99 Wireless Receiver provides 80 selectable channels for reliable performance no matter where you are. The receiver's True RF Diversity design minimizes dropouts, while tone key technology prevents unwanted noise when your transmitter is off or out of range. **AWX Wind Instrument System** Frequency-agile UHF wireless system <li> 80 operating channels across 24MHz bandwidth <li> Up to eight simultaneous systems per frequency band (region dependent) AC adapter and rackmount kit included **CR99 Wireless Receiver** Rugged all-metal, rack mountable chassis <li> Multifunctional backlit LCD (RF, audio, transmitter battery levels) Group scan for easy single or multi-system setup <li> IR sync wirelessly matches receiver and transmitter frequency <li> True RF Diversity design minimizes dropouts <li> Tone key prevents unwanted noise when transmitter is off/out of range <li> Removable 1/4-wave antennas <li> Balanced XLR and 1/4" outputs **ATX Wireless Transmitter** Clips directly to instrument bell (no beltpack or cable required) HM60 condenser microphone capsule with supercardioid pickup pattern <li> Handles up to 125dB SPL <li> 3-point halo isolation mount <li> 8.5" gooseneck (P3 connector) for optimal mic placement <li> Windscreen included <li> Up to eight hours of battery life using built-in rechargeable lithium-ion battery <li> Sealed gold contact charging connector for included USB-style charger <li> Low battery LED indicator <li> 300' operating range (line-of-sight) Variable Gain control <li> 1-touch Mute

Samson SWC88BGT Instrumentsystem

Samson Concert 88 kan hantera upp till 16 trådlösa system samtidigt över två frekvensband inom en radie av 90 meter mellan sändare och mottagare. Via frontpanelens "select"-knapp finns 8st valbara frekvenser. En automute-funktion stänger automatiskt av ljudet om brus uppstår tills signal finns tillgänglig igen.

- Trådlöst system med handmikrofon, instrument, mygga eller earset
- Upp till 16 system kan användas samtidigt
- Infraröd trådlös kanal-setup
- True diversity och 8st valbara kanaler för bästa mottagning
- 90m arbetsradie
- Tone key och automute funktion
- Rackmonteringskit inkluderat

Mottagare och beltpacksändare med GC32 instrumentkabel.

SAMSON Concert99 Guitar System

SAMSON Concert99 Guitar System Frequency-Agile UHF Wireless Guitar System

In both single and multi-system arrangements, the CR99 Wireless Receiver offers 80 total operating channels, selecting the best frequency option for your area. Quick to setup, the CR99's Group scan helps avoid conflicting frequencies, while its IR sync function allows users to wirelessly match the transmitter to the receiverâ€™s operating frequency.The CR99 receiver features a bright, backlit LCD for monitoring on dark stages, even at long distances. The LCD also shows the exact battery life of your transmitter, along with the channel number and its corresponding UHF frequency.Audio reaches the CR99 Wireless Receiver receiver via the CB99 Beltpack Transmitter, which features Samson's GC32 Guitar Cable with a locking connector. Offering eight hours of battery life using two AA batteries (not included), the CB99 transmitter features a variable Gain control, popless 1-touch Mute button and metal belt clip. Frequency-agile UHF wireless system <li> 823-832 MHz <li> 80 operating channels across 25MHz bandwidth <li> Up to eight simultaneous systems per frequency band (region dependent) AC adapter and rackmount kit
