

Produktblad sE Electronics V7-MC2

sE Electronics V7-MC2 A high-performance wireless version of our V7 supercardioid dynamic vocal mic, specially designed for Sennheiser®

INNOVATIVE, SPECIALIZED ALUMINUM VOICE

COILThe DMC7 dynamic capsule in the V7 MC2 has been custom-developed for a crisp, open sound that perfectly captures your voice in the most natural way you've ever heard on stage - and its sophisticated supercardioid capsule design helps isolate your voice from other instruments, ensuring vast amounts of gain before feedback. Proven Neodymium magnets, tight production tolerances & high-end workmanship ensure excellent sensitivity, superior sound quality and superb consistency. **ALL-METAL BEVELED SPRING STEEL GRILLE**The V7 MC2's™ road-ready design is all metal - no plastic parts here. The chassis' high quality, highly durable zinc alloy is designed to hold up under on-stage stress for years, and the spring steel mesh grille is dent-proof and corrosion-free for perfect reliability. The beveled edge around the grille also prevents your mic from rolling when you put it down on top of your amp or the stage floor - so simple, yet so effective. **INTERNAL WINDSCREEN**Efficiently reduces unwanted wind noise and plosive pops. In case you don't like the stylish red color, or if you find it unsuitable for certain applications, we've included a spare black windscreen in the box for you. **PATENTED INTEGRATED SHOCK MOUNT**The V7 MC2's™ innovative, patented shockmount efficiently decouples the capsule from mechanical vibration, providing exceptionally low handling noise as compared to other capsules in its class. This means you can feel free to move around on stage without fear of rumbles, pops, or anything other than your voice coming through. **GOLD-PLATED CONTACTS**The V7 MC2's gold-plated contacts ensure a loss-free and reliable signal connection for years, and years, and... The V7 MC2 is available in four different color combinations to complement a variety of Sennheiser® transmitters: Standard, Black, Blue, and Black & Blue. **SYSTEM REQUIREMENTS**

- V7 MC2
- sE Logo sticker
- User manual with warranty card
- Spare black internal windscreen

SPECIFICATIONS

- Capsule: Dynamic
- Voice Coil: Aluminum
- Magnet: Neodymium
- Polar Pattern: Supercardioid
- Frequency range: 40 Hz - 19 kHz
- Electrical Impedance: 300 Ohms
- Sensitivity: 2.0 mV/Pa (-54 dB)
- Connectivity: Compatible with Sennheiser® wireless systems
- Diameter: 54 mm x Length: 87 mm
- Weight: 116 g
