Produktblad sE Electronics V7-MC2 Black

sE Electronics V7-MC2 Black A high-performance wireless version of our V7 supercardioid dynamic vocal mic, specially designed for Sennheiser® - black

INNOVATIVE, SPECIALIZED ALUMINUM VOICE COIL The DMC7 dynamic capsule in the V7 MC2 has been custom-developed for a crisp, open sound that perfectly captures your voice in the most natural way you've ever heard on stage - and its sophisticated supercardioid capsule design helps isolate your voice from other instruments, ensuring vast amounts of gain before feedback. Proven Neodymium magnets, tight production tolerances & high-end workmanship ensure excellent sensitivity, superior sound quality and superb consistency. ALL-METAL BEVELED SPRING STEEL GRILLE The V7 MC2's™ road-ready design is all metal - no plastic parts here. The chassis' high quality, highly durable zinc alloy is designed to hold up under on-stage stress for years, and the spring steel mesh grille is dent-proof and corrosion-free for perfect reliability. The beveled edge around the grille also prevents your mic from rolling when you put it down on top of your amp or the stage floor - so simple, yet so

effectiveINTERNAL WINDSCREENEfficiently reduces unwanted wind noise and plosive pops. In case you don't like the stylish red color, or if you find it unsuitable for certain applications, we've included a spare black windscreen in the box for you.PATENTED INTEGRATED SHOCK MOUNTThe V7 MC2's™ innovative, patented shockmount efficiently decouples the capsule from mechanical vibration, providing exceptionally low handling noise as compared to other capsules in its class. This means you can feel free to move around on stage without fear of rumbles, pops, or anything other than your voice coming through.GOLD-PLATED CONTACTSThe V7 MC2's gold-plated contacts ensure a loss-free and reliable signal connection for years, and years, and...The V7 MC2 is available in four different color combinations to complement a variety of Sennheiser® transmitters: Standard, Black, Blue, and Black & Blue.SYSTEM REQUIREMENTSIN THE BOX V7 MC2 sE Logo sticker User manual with warranty card Spare black internal windscreen **SPECIFICATIONS** Black Capsule: Dynamic Voice Coil: Aluminum Magnet: Neodymium Polar Pattern: Supercardioid Frequency range: 40 Hz - 19 kHz Electrical Impedance: 300 Ohms Sensitivity: 2.0 mV/Pa (-54 dB) Connectivity: Compatible with Sennheiser® wireless systems Diameter: 54 mm x Length: 87 mm Weight: 116 g

Produktblad sE Electronics V7-BFG Signature

sE Electronics V7-BFG Signature The signature vocal microphone for the one and only Billy F. Gibbons

Best known as the guitarist and lead vocalist of the legendary American rock band ZZ Top, Billy Gibbons consistently ranks as one of the greatest guitarists of all time. The Rock & Roll Hall of Fame inductee and iconic blues-rock guitarist from Texas has been performing on the road for decades, and is still musically hyper-active with The Kings of Chaos, the BFG's and last but definitely not least - ZZ Top! Offering the same stunning sound quality as sE's highly-regarded V7, the V7 BFG is a dynamic vocal hand-held microphone with a supercardioid polar pattern, delivering a crisp, open sound that perfectly captures your voice in the most natural way you've ever heard on stage. INNOVATIVE, SPECIALIZED ALUMINUM VOICE COIL The DMC7 dynamic capsule in the V7 BFG has been custom-developed for a crisp, open sound that perfectly captures your voice in the most natural way you've ever heard on stage - and its sophisticated supercardioid capsule design helps isolate your voice from other instruments, ensuring vast amounts of gain before feedback. Proven Neodymium magnets, tight production tolerances & high-end workmanship ensure excellent sensitivity, superior sound quality and superb consistency. CUSTOM CHROME FINISH With this special plating for a unique look and feel, the V7 BFG's highly-polished chrome finish makes an immediate impression on stage or in the studio. PATENTED INTEGRATED SHOCK MOUNT The V7 MC2's innovative, patented shockmount efficiently decouples the capsule from mechanical vibration, providing exceptionally low handling noise as compared to other capsules in its class. This means you can feel free to move around on stage without fear of rumbles, pops, or anything other than your voice coming through. ALL-METAL HOUSING & BEVELED SPRING STEEL GRILLE The V7 BFG's road-ready design is all metal - no plastic parts here. The chrome-plated chassis's high quality, highly durable zinc alloy is designed to hold up under on-stage stress for years, and the spring steel mesh grille is dent-proof and corrosion-free for perfect reliability. Plus, the highly-polished chrome finish makes an immediate impression on any stage. The beveled edge around the grille also prevents your mic from rolling around when you put it down on top of your amp or the stage floor. ROYAL PURPLE INTERNAL WINDSCREEN Efficiently reduces unwanted wind noise and plosive pops. (And just in case you don't like Billy's custom color, we've included a spare black windscreen in the box.) GOLD-PLATED XLR CONNECTOR The V7 BFG's gold-plated XLR connector also ensures a loss-free and reliable signal connection for years to come. Produktblad Lampifier 111 Mikrofon

"På musikteknikmässan Summer Namm 2010 berättade företaget Lampifier om sina två nya mikrofoner för livebruk. Modellerna som heter 711 och 111 kan sägas vara dynamiska i dubbel bemärkelse - de har inte bara dynamisk konstruktion, utan har dessutom dynamikprocessorer inbyggda. Både noisegate och kompressor kan användas för att påverka ljudet innan det lämnar mikrofonen.

Poängen med att ha dessa funktioner direkt i micken är att man kan ha kvar exakt samma inställningar från gång till gång. Använder man till exempel micken i samma lokal en gång i veckan är det smidigt att slippa ställa in effektracket varje gång.
