Celestion FTX0617 8R 6.5" coaxial loudspeaker

 6.5" coaxial loudspeaker providing 150Wrms (AES standard) power handling and 92dB sensitivity Full range frequency response: 110 Æ" 20,000Hz FEA (Finite Element Analysis) optimized ferrite magnet assembly acts as common motor for both LF and HF drivers resulting in enhanced coherence Robust cast aluminum chassis is designed to minimize unwanted reflections, further reducing acoustic distortion Demodulation ring reduces flux modulation, minimizing electromagnetic distortion 2" edgewound copper clad aluminum voice coil wound on high temperature glass fibre former 100Â° nominal HF coverage
