FCMK103
**19" Wireless system flightcase - 3 HE**

▶ Features

- **Protects & transports up to 3 units of 19" equipment**
- **Accessories storage compartment in both covers**
- **Pick & pluck foam cover insert**
- **315 mm usable depth**
- **ProShield™ Heavy duty top layer**
- **High quality 9 mm plywood**
- **Hardware by PENN ELCOM®**
- **Dual perforated rack rail on front side**

▶ Description

The FCMK103 is a professional double cover flight case compliant to the ANSI/EIA RS-310D, DIN41491 and IEC60297 standards which is especially designed for use in combination with wireless microphone systems. The inside usable depth of 315 mm allows installation for all type of wireless microphone receivers, while both covers are storage compartments for the matching transmitters. The covers are provided with diced pick & pluck foam, allowing customization according to transmitter shape, guaranteeing a shock-proof transportation.
The construction is made out of high quality 9 mm plywood covered by a **ProShield™** top layer, offering an optimal protection for your equipment. Both front and back lids are detachable, allowing instant access to both controls and connections of your equipment. Mounting of the equipment can be done using the perforated rack rail with punched square holes for use with snap-in cage nuts.

Superior durability and handling convenience is guaranteed through **Penn-Elcom®** hardware such as heavy-duty ball corners, rivet protected recessed flip handles and **MOL™** type butterfly latches.
